

Open Spaces Action Plan 2017

www.braintree.gov.uk

Introduction

The Open Spaces Action Plan sets out a list of outline proposals for the provision and enhancement of open spaces in Braintree District. Its purpose is to demonstrate the need for the provision and enhancement of open spaces and to enable Council officers to demonstrate where financial contributions being sought from developers under the Open Spaces Supplementary Planning Document will be spent.

The proposals are set out in a table which includes schemes identified for Council-owned open spaces, schemes identified by town and parish councils and other proposed open space enhancements for which as yet there are no outline details.

The Action Plan will be under continuous review and brought back to Members for endorsement annually. The proposals shown are effectively work in hand, requiring a detailed programme of works to be drawn up and, in some cases, master planning and public consultation.

It will inform the work programme of Landscape Services, Parks & Open Spaces and Planning Policy. Because the proposals are reliant on the availability of financial contributions, from grants and public sector resources in addition to Section 106 money, the timing of works will be dictated by the date at which sufficient financial resources are available.

Members are asked to support the programme of enhancements and provision as the basis for negotiating open space planning obligations.

The document is updated annually, producing a new adopted version each year, usually in January.
