

Planning Application 19/01993/FUL

Proposed extension to the Playing Field Pavillion for the use of a Community Shop and alterations to roof.

The proposed extension to the existing Pavillion, as a permanent village shop, is well designed and appropriate for a much needed facility that will provide economic, social and sustainable benefits for all Gosfield residents.

It sits well in the heart of the village, with an established highway's entrance and a more than adequate car park; with no objections or comments from those consulted. This application is widely supported and popular in the growing rural community. I fully support this planning application and the officers recommendation to grant this application - to the committee.

Cllr. Peter Schwier
Gosfield & Greenstead Green Ward
