

Application No. 18/02010/FUL (Variation) - Gimsons, Kings Chase, Witham

Statement by Mrs S Mott

I am writing to express my absolute objection to this development. It is an over development on the site of a lovely historical home in the middle of Witham overlooking the park where young children play. At the moment you can walk along the River Walk and to one side is the small Maidment Crescent development which has been there years and then the opposite side is mature trees and shrubs as well as wildlife. These will all be destroyed by his development. If this proposal goes ahead you will be faced with a view of more houses which will also spoil the current view of the houses which back onto the River Walk. Witham has already in my view got too many housing developments and does not need another one, especially in this location, which is totally inappropriate.
